

Jessica Steffler
Director of Career Promotions
5045 Orbitor Dr, Unit 12, Suite 300
Mississauga, On L4Y 4W4

Greetings,

According to the buildforce, the construction industry in Ontario is expected to rise by 39,000 workers from 2016 to 2026. An estimated 45,000 workers will be required to fill the anticipated labour shortage. The construction industry is often overlooked as a possible career choice and has had negative perception viewed by society.

The Ontario Construction Careers Alliance is a non-profit organization established to promote all career opportunities in the Construction Industry. The Ontario Construction Careers Alliance mandate is: to promote careers in construction outlining the duties, skills and education required to enter into a career and how to get started in that career.

That Ontario Construction Careers Alliance has various resources to enlighten students about the career opportunities. The website (www.myocca.ca) provides valuable information regarding the Civil construction industry, career options, high school programs and grants or scholarships. We have various resources regarding career pathways in construction that are available at no cost. We also provide classroom presentations with an interactive simulator of a heavy piece of equipment at no cost.

To book your classroom presentations or for other resources, please contact me at jessica.steffler@myocca.ca.

If you have any questions or concerns, please feel free to contact me.

Sincerely,

A handwritten signature in black ink, appearing to read "Jess Steffler", written over a light blue horizontal line.
