# Going Back to School!

My school has been closed  
because of Coronavirus.  
Soon I will be going back to  
school!

I will see my friends and teacher when I go back to school! This will be so much fun! Some things may look different.

My teacher will be wearing a mask. Some of my friends may be wearing a mask too.

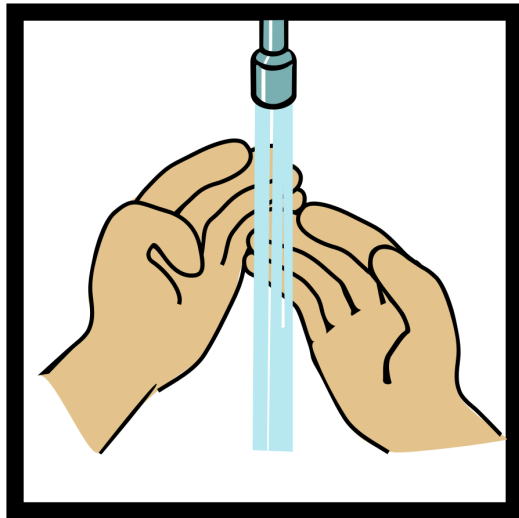

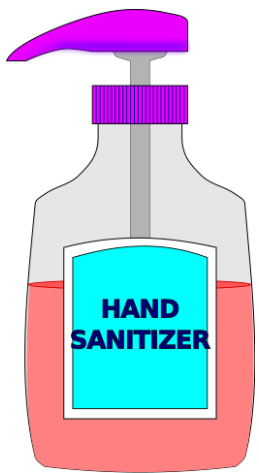

Germs can spread when we breathe, cough, or sneeze. A mask helps to stop the germs from spreading.

Some people might be wearing gloves. Gloves help to protect our hands from germs too.

We will be washing and sanitizing our hands lots while at school!

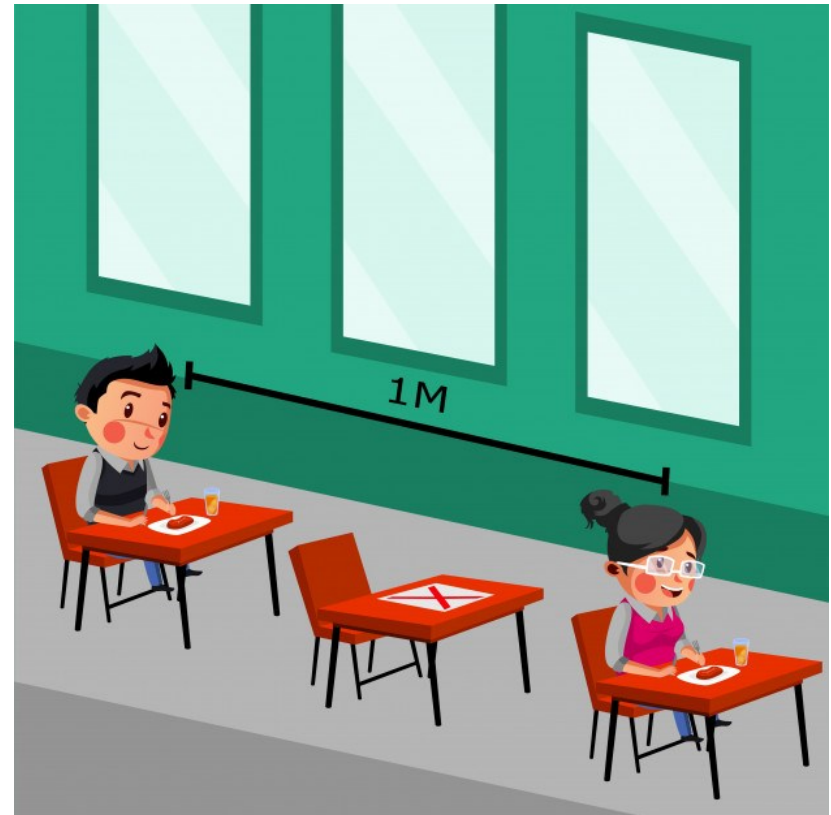

Seeing our friends will be so much fun! We will need to remember to not be too close though! Keeping our distance also helps us to not spread germs!

There may be signs or stickers on the walls and floors to help me keep my distance.

Keeping my distance from my friends in the classroom, hallways, and outside will keep us safe.

Some friends may be keeping their distance by learning from home.

Things may look different when I go back to school. This change may be hard at first. Together we will stay safe, learn, and have fun!
